Mr. Shea,

I spoke with the Remedial Project Manager about your request for the data that support the draft Focused Feasibility Study, and the appendices including the Conceptual Site Model and the Empirical Mass Balance Model. She told me the data is available on the Passaic website (as are the documents themselves), but we do not currently have a hard copy of the data in our offices.

The data can be obtained on www.ourPassaic.org -- in the left-hand column, click on the "Contaminants" bubble, then click on either of the two links on the page (one for historical data and the other for new data).

I hope this is helpful.
